## SUMMARY

Results-oriented web developer, offering extensive experience in design and layout. Highly educated in various programming languages and coding. Looking for a position in a fast-paced company that appreciates hard work, dedication and evolving technical skills.

## EXPERIENCE

04/2019 - Current

**The LDM Center | Nairobi, Kenya**  
Freelance Web Developer

- Write well designed, testable, efficient code by using best software development practices
- Create website layout/user interface by using standard HTML/CSS practices
- Integrate data from various back-end services and databases
- Gather and refine specifications and requirements based on technical needs
- Create and maintain software documentation
- Be responsible for maintaining, expanding, and scaling our site
- Stay plugged into emerging technologies/industry trends and apply them into operations and activities
- Cooperate with web designers to match visual design intent

07/2022 - 11/2023

**VLAN College of Business & Technology | Nairobi, Kenya**  
Computer Programming Tutor

- Trained students in theory and practice of computer programming, specifically using C, C++, PHP, MySQL, HTML & CSS, to fulfill learning needs.
- Administered assessments and tests, evaluated trainee performance and implemented measures to help students overcome learning challenges.
- Taught learners computer science principles to help with proper care and operation of software and hardware.
- Equipped learners with practical skills and knowledge by arranging and coordinating workshops, demonstrations and conferences.
- Encouraged student participation and interest in subject matter with personalised training plans.
